INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/EP2004/051007

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1 - 12	YES
	Claims	None	NO
Inventive step (IS)	Claims	1 - 12	YES
	Claims	None	NO
Industrial applicability (IA)	Claims	1 - 12	YES
	Claims	None	NO

2. Citations and explanations (Rule 70.7)

It is clear that none of the cited prior art documents relevant to the present application discloses or even suggests the subject matter of the new amended claims. Consequently, the combination of features of independent system claim 1 is not found in the prior art and cannot be derived in an obvious manner therefrom. The subject matter of independent system claim 1 may therefore be considered novel and inventive (PCT Article 33(2) and (3)).

The same observation can also be made, *mutatis mutandis*, with respect to the content and subject matter of claim 12.

System claims 2 to 11 appear to be directly or indirectly dependent on system claim 1 and thus also comply, as such, with the PCT requirements of novelty and inventive step.
